

Your Woodfarm Holiday must-haves...

Treats

Plenty of these especially for the journey if they're need to calm down anxious travellers, as well as setting tails wagging once you arrive.

Leads and Collars

You'd be amazed at how many times leads can get lost, and please make sure your dog's collar has your contact details on it.

Bedding

Absolutely essential if you dog needs that familiar scent of home. This is their comfort blanket.

Harness or seat belt

Particularly if you're travelling far, make sure the dogs are well secured in the car.

Food

If you can, pack enough food for the whole stay. We do have a great partner who stocks a huge range of raw and wet food, and they offer a delivery service. Have a look at [Doodledales website](#) for more information.

Bowls

We have this covered, but maybe the familiarity of home would be good too.

Poop Bags

Do bring plenty as they may have tummy troubles that could affect the amount you'll need. We have them here anyway in Woodfarm branded dispensers.

Travel drinks and bowls

For food order drink, the silicone collapsible bowls are great, and there are loads of travel water bottles on the market too.

Towels

We have a stock of them for you, but do make sure you bring them too. Again, that scent of home could be really helpful.

First aid kit

It's wise to keep one in the car for the dog anyway.

Medication

Don't forget to pack their medicines or regular supplements.

Paperwork

Make sure you have your own vet details handy, as well as pet insurance policy information. We have a list of local vets to the Barns and Barges. Please ensure you have a clear, recent photo of your dog on your phone, or printed out, just in case they wander off.

Toys

Do make sure you don't leave home without their favourites. And most importantly, don't leave them at Woodfarm!
